The days are overwhelming
I swear I just can't tell if I'm
Coming or going, I wish I was all knowing
Cause I wanna fly, but what if I
Fall right on my face
But I can't stop here, I gotta face my fear
Or everyday before this was in vein

[Hook]

So I got to keep on going on
And I can't stop for notgning
So I got to keep going on and on and on

My anxiety is killing me
Sleepless nights I must defeat
Cause nothing's really wrong
Guess it just took so long
For me to get to the place, I wanted to be

Now that I'm here, I gotta face my fear
Or everyday before this was in vein

[Hook]

So I got to keep on going on
And I can't stop for notgning
So I got to keep going on and on and on

[Bridge]

I've gotta hold my head up high
Can't settle for just a little bit of sky
Can't be afraid to spread my wings and fly
I've gotta turn my dreams into life

[Hook]

So I got to keep on going on
And I can't stop for notgning
So I got to keep going on and on and on
