I'm happy, so ready
For the next phase in my life
These days are fulfilling
And I have peace of mind

But every time I get too high
You do your best to knock me down
But I am not who I was back then
You're trying to hurt me, you're really trying

I feel like you owe me
No fighting, fussing, caring to start an argument
Why cant I have my peace?
I understand why they say misery love company

But what you failed to see I hold
The power I am in control
And all things must come to an end
You're trying to hurt me, you're really trying

You're trying but it's all right
There is no way I'm let you take what I have found
within
You're trying so hard to get under my skin
This is a battle that you won't win

You're trying, but it's all right
There is no way I'll ever be unhappy again
You're trying so hard to get under my skin
You're trying, but it's all right

You watch it, you wait for
Your 15 minutes of my day
It make you feel good
If you think that you've got into me

Funny 'cause I don't wish nothing bad on you
Constant drama all you wanna put me through
I've made my decision and I'm firm on it
So I don't know why you're even trying

You're trying but it's all right

There is no way I'm let you take what I have found
within
You're trying so hard to get under my skin
This is a battle that you won't win

You're trying, but it's all right
There is no way I'll ever be unhappy again
You're trying so hard to get under my skin
You're trying, but it's all right

I'm feelin' faith
And no you can't take that from me
You're driving all your energies
Into yourself and turn it to positivity

I'm feelin' faith
And no you can't take that from me
You're driving all your energies
Into yourself and turn it to positivity

You're trying, but it's all right
There is no way I'm let you take what I have found
within
You're trying so hard to get under my skin
This is a battle that you won't win

You're trying, but it's all right
There is no way I'll ever be unhappy again
You're trying so hard to get under my skin
You're trying, but it's all right
