I don't know, I don't wanna know  
Every time you're making love to someone  
That's OK , you're far away  
And you can discreetly have fun

Now I'm hopin, you left the curtains open  
And you're leavin' the lights on  
I cant cope, I got my telescope  
And I'm reaching new heights onâ€¦

This Special View -- Oh Such a Special View

Then it's all over  
And I can't help feelin lost without you  
Near me, you can't hear me  
Whisper words of love about you

It's kinda galling  
T see that brute mauling  
Your soft delicate figure  
That's the price you have to pay  
Fraid there is no other way  
This thing is gonna get bigger & bigger

### CHORUS

Feeling Come & feelings go  
It's so hard to define them  
On some occasions I lose my patience  
And I slip out of alignment

If I say I'm sorry  
Don't take this pleasure from meâ€¦  
This is something really thrills me,  
But same time it kills me

### CHORUS

Special View â€¦. Special View-oo oo hooh hoo
