I woke up with a feeling
There's a reason I'm still here
I looked up at the ceiling
Heard your whisper in my ear

I opened up my eyes
Our dreams may come alive
But it's not a secret
If no one can keep it
I'm over living lies

We will never dance in the spotlight
We will never kiss by the moonlight
I can't hold your hand in the daylight
Love will lighten the dark

She said stay out of trouble
But my hands were never clean
I'll be safe in our bubble
But with nothing left to dream

I opened up my eyes
Our dreams may come alive
But it's not a secret
If no one can keep it
I'm over living lies

We will never dance in the spotlight
We will never kiss by the moonlight
I can't hold your hand in the daylight
Love will lighten the dark

We will never sleep in the sunlight
We will never touch in the streetlight
You can't hold my hand in the daylight
Love will lighten the dark

I try to hope less
But it's hopeless (3x)

We will never dance in the spotlight

We will never kiss by the moonlight
I can't hold your hand in the daylight
Love will lighten the dark

We will never sleep in the sunlight
We will never touch in the streetlight
You can't hold my hand in the daylight
Love will lighten the dark
Love will lighten the dark
