There you go
Walking away like you did before
But I know
I know you'll be back,back for more
And the game
The game will go on as it was
Nothing's changed
We'll know when we're closer to love

REPEAT:

Aren't we desperate, aren't we afraid
We're just two lost and lonely people
scared to be alone again
Aren't we desperate, aren't we afraid

Can't you see that there are no victims
just voluteers
We won't change
We won't change until we face our fears
We're alone
Even though we are together right now
Love remains
Just out of reach somehow

REPEAT

I know we can make it
Take up that look into my eyes
We'll take the future for you and I, yeah

Are we so desperate, oh, are we afraid
We're just two lost and lonely people
scared to be alone again
Are we so desperate, aren't we afraid
Desperate
