Suckin' up, suckin' up to hypocrites
Sums up my days
Movin' up, backin' up, I'm like a
Monkey in a maze
I think a lot but then I don't remember anything
Nobody hears
And I don't even know how I got here
Here in this gray abyss
Does anybody really have a chance?

Chorus :
Well I am just a volunteer
I am not an entity
It amazes me to tears
Alone in your machine
I'm not some faceless pawn
That you can tread upon (3rd chorus : that you can trample on)
No more tears
Alone in your machine

Cleanin' up, pickin' up your messes
Is how I survive
You pull the lever
to get me started
You keep me running till I don't remember anything
''cause I'm expendable
I'm sick of livin' like today's tomorrow
And I wanna step outside
Right into never never land

(Chorus)

(Solo)

(Chorus)
And I wanna step outside
