I'll tell you that I love you if it makes everything alright  
I just wanna hold you, I've got something to prove  
tonight  
I'm tired of the telephone, can't you give me one night  
alone?

I'm staring at your picture, I realize what you mean to  
me  
Every single moment is burning deep in my memory  
It doesn't matter what they say, our love's too good to  
throw it away

All we need is one night alone  
Just you and me, won't you give me  
One night alone 'cos that's all I need  
One night alone with you lovin' me

I wanna feel your heartbeat in the darkness next to  
mine  
I need to feel your heartbeat to know our love's still  
alive  
The power of your tender touch  
You know I waited long long enough for just

One night alone, that's how it should be  
All we need is one night alone just you and me  
One night alone with you lovin' me  
Can't you give me one night, one night?

This isn't the way two lovers live  
And this isn't the dream I wanna be living in  
No, no, no!

I'm tired of this telephone  
Can't you give me one night alone?  
One night alone, just you and me

All we need is one night alone  
That's how it should be  
One night alone with you lovin' me  
All we need is one night, one night alone
