Come catch me babe  
I'm fallin

Come n save me baby  
I'm calling

Come and be with me babe  
Come and be with me babe  
Come after a while  
Come catch a cloud babe  
Don't let me fade away  
Don't let me fade away  
Come catch a feeling  
It left a fire in me

Eyes wide open  
I'm dreaming

Free fallin baby  
Don't let me fall on down  
Free fallin baby

Come touch me baby  
I need to be loved  
And come hold me babe  
I need to be loved  
I need to be loved  
Come touch me baby  
I need to be loved

And come hold me babe  
I need to be loved  
I need to be loved  
I need to be loved  
I need to be loved  
I need to be loved  
I need to be loved

Come catch a fire  
Don't let me fade away  
Come catch a fire babe

Don't let me fade away  
Come catch a feeling  
Left a fire in me

Eyes wide open  
I'm dreaming

Free fallin baby  
Don't let me fall on down  
Free fallin baby  
Free fallin baby

Come touch me baby  
I need to be loved

And come hold me babe  
I need to be loved  
I need to be loved  
I need to be loved  
I need to be loved  
I need to be loved  
I need to be loved....
