

## Refreshments, The "Light the light"

Visit "[Light the light](#)" on [MotoLyrics.com](http://MotoLyrics.com)

They put a man on the moon in sixtynine  
One small step for man -a giant leap for mankind  
Neil touched ground and made history  
The whole world was watchin' it on TV

Well they stayed out eight days in space  
But the "Moon" we saw was another place  
Heavily guarded by many a gun  
The Nevada-desert, Area 51

Now it's time to get things right Time to fight the fight  
Yeah, scratch the match Time to light the light  
Scratch the match Time to light the light

They went through radiation belts with poor protection  
And we saw shadows casted in different directions  
The Eagle has landed, said the commander  
But no blast crater under the lander

The American flag was wavin' in the air  
Up on the moon were there ain't no atmosphere  
Well there're some weird things/shit don't you  
agree  
Did we land on the moon or didn't we

Now it's time to get things right Time to fight the fight  
Yeah, scratch the match Time to light the light  
Scratch the match Time to light the light

Did NASA really pull off a crime  
The greatest hoax of all time  
"If we can't make it fake it" and so they paid  
For the most expensive film ever made

Well the evidence is still up there today  
Half a million miles away  
But nowadays we ain't goin' nowhere  
So the truth remains out there

Now it's time to get things right Time to fight the fight  
Yeah, scratch the match Time to light the light

Scratch the match Time to light the light
