From the moment we met We have come a long way  
To a sense of regret And the mess of today

Sweet nothin' 's been whispered Helpin' hands have  
been lent  
Red roses been given' Love letters been sent

Now after all we've been through it's just fallin' in  
The good love that we've known is now all gone  
We just can't win

Wrong words have been spoken Others left unsaid  
Promises have been broken Talkin' out of our heads

Sounds of laughter been heard Lessons been taught  
Tears have been shed While battles been fought

Now after all we've been through it's just fallin' in  
The good love that we've known is now all gone  
We just can't win

Many dreams have gone lost Lies have been told  
Bridges been burned Hearts have gone cold

Now after all we've been through it's just fallin' in  
The good love that we've known is now all gone  
We just can't win

Now after all we've been through it's just fallin' in  
The good love that we've known is now all gone

The good love that we had has now gone bad  
We just can't win

The good love that we've known is now all gone  
We just can't win
