feat/Pras  
Oh no, oh no  
Say, we gonna rock down through electric avenue  
And then we'll take it higher (higher)  
Say, we gonna rock down through the brooklyn  
avenues  
And then we'll take it higher (higher)  
Oh no, oh no  
Yeah, yo, slick like Rick James when I hit  
Superfreak chicks, I don't miss  
Mix wit yo nose, my flows make you sick  
Two chicks for me, none for you like Twix  
Play with niggaz head like Clef's guitar picks  
Went from bottom pits to makin hits and  
hollow tips and shootin lips (right)  
Handle my business, make sure it sits  
Ride throught the tunnels, fuck the guest lists  
Light up the block with roman candlesticks  
Known to blow shows with pyrotechnics  
Rappin bout yo' whips while yo' cat demands hits  
Buyin shorty gifts with checks from American Express  
Your record sound like a demo that was not yet mixed  
Your whole style's broke and it should be fixed  
Time's runnin out as my Rolex ticks  
Don't get caught on the ave, it's too electric  
Say, we gonna rock down through electric avenue  
And then we'll take it higher (higher)  
Say, we gonna rock down throught the brooklyn  
avenues  
And then we'll take it higher (higher)  
Oh no, oh no  
I dedicate this to my peeps who roam the streets  
God bless they souls, may they rest in peace  
There are those who finance and those who choose to  
lease  
Whatever suits you better on the terms of your leash  
Different strokes for different folks  
God, I refuse to going back to being broke  
Lord he got struck wit lightnin, he got hit hard  
Faces 20 to life maximum, his whole life is scarred  
The preacher's son and I came off the Santa Maria

Ten cases of malt I caught the diarrhea  
Load the ReFugees on the aircraft carrier  
Some say Dirty Cash, we never heard of ya  
(You don't know me? You don't know me?)  
Say, we gonna rock down through electric avenue  
And then we'll take it higher (higher)  
Say, we gonna rock down through the brooklyn  
avenues  
And then we'll take it higher (higher)  
Oh no, oh no  
(alright, alright)  
Watch yo back, watch yo side, swimmin wit sharks  
String you like a harp while they playin Mozart  
No credentials, get nowhere like ozlo  
Sent back to frisco, like the regal begal  
Suave like Rico, on fire like pyro  
Frantic like skitzo, rougher than Brillo  
He caught the wrap like Donnie Brascoe  
Out in the streets there is violence  
Down in Brooklyn there is violence  
down there in Queens there is violence  
And there's a lot of work to be done (Lord)  
Down in the ghetto there's violence  
Out in L.A. there is violence  
In Miami there is violence  
And there's a lot of work to be done (Lord)  
Say, we gonna rock down through refugee avenue  
And then we'll take it higher (higher)  
Say, we gonna rock down through haiti avenue  
And then we'll take it higher (higher)  
(ReFugee all stars, yeah, yeah)
