

## Operation M.D. , The "Everyday I"

Visit "[Everyday I](#)" on [MotoLyrics.com](http://MotoLyrics.com)

When can you take me to the liquor store, I had it all  
now I want more and more  
Everyday I live, everyday I die  
How can I make it to the job on time, when i've been  
dreaming of a life of crime oh no  
Everyday I live, everyday I die

From the jail cell to the party, another birthday, another  
sorry  
From the city to the country, another hates me, another  
loves me

Oh, can you get me my prescription pills, i'm in a hurry  
just to have some time to kill  
Everyday I live, everyday I die  
There's nothing left to say so go away, i never listened  
to you anyway oh no  
Everyday I live, everyday I die

From the jail cell to the party, another birthday, another  
sorry  
From the city to the country, another hates me, another  
loves me

No not now, I think i'm going to go, I think i'm going to  
make it,  
No not now, I think i'm going to go, I think i'm going to  
take it now

I don't care what you have to say, I don't care so please  
go away

From the jail cell to the party, another birthday, another  
sorry  
From the city to the country, another hates me, another  
loves me

Everyday I live, everyday I die
