Walk away, walk away with pride, im on your side
Steal the day, steal the sunshine and rain
I'm on your side
Someone like you, want me, to talk to
I'm not being rude, i've got things to do

I faked away, I faked the words that I say
With strangers display
And what remains
Well what remains inside
Why are you so blind

Someone like you, want me to talk to
Well im not being rude, i've got stuff to do

Theres more to life
And I, I'm not your friend
You know theres more in life
And I wish it was
Its not me, its not me, its not me, its not me

Someone like you, want me to talk to
Well i'm not being rude, I got things to do
Someone like you stands around and fakes the truth
Goodbye, we're through, I got shit to do
ohhhohhhhh
