Well, I'm not making haste, so could it be haste is  
making me  
What's time but a thing to kill or keep or buy or lose or  
limit  
I gotta go faster, keep up the pace  
Just to stay in the human race

I could go supersonic  
The problem's chronic  
Tell me does life exist beyond it  
When I need to sate  
I just accelerate into oblivion  
Into oblivion-ayaaayayayayayay-n

Now here I go again everything is alien  
How does it feel to be outstripped by the pace of  
cultural change?  
My deeds are senseless and rendered meaningless  
When measured in that vein.

I could go supersonic  
The problem's chronic  
Tell me does life exist beyond it  
When I need to sate  
I just accelerate into oblivion

I won't lie [Pace setters, Go getters]  
It's exciting [Red lixers (???), Forgetters]  
When I try [Researchers, Berserkers]  
To decide things [strategies to help the workers]  
I just want to live [Enticing me with vices]  
Decently [Good lysis, no crisis (???)]  
Meaningfully [Revel in dependency]  
I'm in misery [Digital efficiency]

I could go supersonic  
The problem's chronic  
Tell me does life exist beyond it  
When I need to sate  
I just accelerate into oblivion  
Into oblivion-ayeayeayeayeayeayeaye-n
