You have got your stranglers and prowlers in soft
shoes
Furniture makers carpenters too
Bombers and commandoes all with some lost cause
Disgruntled workers immersed in "veritÃ s"

But stealthily in the land of the free he's lurking there
Most are unaware of
The biggest killer in American history
And god shed his grace on thee

Business institutions universities
Both are quite the circus when the killer wants his way
I think of Edward Teller and his moribund surprise
Then i look to Nevada and I can't believe my eyes
Its time for him to die!

Most cannot remember minutia learned at school
Its not there on the blackboard, its what they don't tell
you
We have got a problem, it starts and ends right here
It can be defeated but you've got to face your fear

We'll join and unite and steady out sight
The we'll put it right 'cuz it's time to fight
The biggest killer in American history
And god shed his grace on thee
