our apocalypse 1981
teenage vagrants looking for some fun
a renewed promise of prosperity
a vulgar platform for the world to see
we were...
the hippy killers (4x)

busted refuse from broken homes
pocked flesh and malacious bones
creatures sustained by desire, heart, and soul
nothing to leave and nowhere to go
we were...
the hippy killers (4x)

the hippy killers (8x)

good days during horrible times
overused bodies, neglected minds
shoulder to shoulder we formed as one
the next miserable generation
we were...
the hippy killers (4x)
