us government drew up plans.
too much money, got the cash.
break out ????? staff
????? is a fuckin' mess.
they think they know it all.
they're gonna die in the fireball.
????? overrule
????? play the fool
all day.
world war iii.
forget ?????
i'll make us have another war.
it doesn't matter what the people think.
these days our president drinks:
here i go i'll launch the bomb.
it's headed straight for guam.
unwrap the hidden truth
into your little room.
world war iii
