You're my little love gun
You're my beehive stinger
I'll be your braille
If you'll read me every night

You are my cup of tea
And I'll drink you very slowly
You are the church of love
And suddenly I'm feelin' holy

It's just like you
To make me shiver when I'm sweating
It's just like you
I'm pullin' at my party frock
It's just like you
To leave me shakin' in my go-go boots

I've seen love
It might be true
I've seen it
It looks just like you
It's just like you

You are my second skin
You're like a birthday wish
I haven't eaten all day long
And baby you're my favorite dish

You're the plug and I'm the socket
I'm the moon and you're the rocket
You can sing it you can talk it
You're the change in my back pocket

It's just like you
To make me shiver when I'm sweating
It's just like you
I'm pullin' at my party frock
It's just like you
To leave me shakin' in my go-go boots

I've seen love
It might be true

I've seen it
It looks just like you
It's just like you

Angel, I feel I'm flying with the angels
And on my naked back are soft white wings
And they will fly me to my angel

You're a present in the past
I'll unwrap, you save the paper
Blinding my eyes with a blast
The devil and the savior

You're the trash I should toss
Or the treasure I should savor
You are everything and less
You're the rag and I'm the mess

It's just like you
To make me shiver when I'm sweating
It's just like you
I'm pullin' at my party frock
It's just like you
To leave me shakin' in my go-go boots

I've seen love
It might be true
I've seen it
It looks just like
Seen it
It looks just like you

It's just like you
It's just like you
It's just like you

It's just like you
It's just like you
It's just like you
It's just like you

It's just like you
It's just like you
It's just like you
