[Big Oak]

My days are filled with hassles  
Little problems that run through me like a slider from  
White Castle  
I have to, keep my mind in line and be patient  
Cause all I wanna do is rock the mic to standing ovation  
But that day will soon come I tell myself  
For now I gotta stay content puttin papers on a shelf  
But when the sun goes down, I feel free (ahh)  
When stars cover the sky, I release the true me  
The MC, you know the vocal technician  
Mr. Black steps into the phone booth and comes out on  
a mission  
Now I'm the Super Big Oak  
Restorin integrity to what's become a big joke  
See, just put a beanie on my head and a mic in my  
hand  
A swallow of the night air that blankets the land  
My right hand man Nick Fury on the right mic.. stand,  
damn!  
It's a done deal, go 'head and seal all the exits  
Lexicon will now display why we're on some next shit  
No questions, just pay attention  
And maybe then you'll understand, that

[Chorus: repeat 2X]

There isn't many that can say they're here to save the  
day  
It's the two that recognize the ones that paved the way  
Lexicon is out to move the crowd like the wave  
Cause when night falls, these two make the people say  
HEY!

{\*scratch: "the night is on my mind" -> Q-Tip\*}  
{\*"It's the beat bumpin, late night, 40 amp"\*}  
{\*"Lexicon and.." ".. Thanksgiving brown"\*}  
{\*scratch: "the night is on my mind" -> Q-Tip\*}

[Nick Fury]

The world startin to move around me again  
I'm just tryin to catch up, tryin to keep up

That's why I always keep my Nike's all the way laced up  
Work on dealin with the rest of the world from the waist  
up  
I, go through the motions and smile in the face of  
the cast of real life who appear to be a waste of  
Nah, forget it there's a fight out back  
Between Nickolaus Furious and Nickolaus Black  
And the winner is? You see at nightfall I am  
much less of Peter Parker and more of Spiderman  
Plus I'm tighter than a spandex; and when combined  
with my brother  
there's no doubt we'll take the advantage (yo)  
Rolled down the windows and let the air blow  
away the day's flow of straight and narrow  
Works like a scarecrow, that's how I stand in the field  
above it all, rock with universal appeal  
So you better make way for the rap superheroes  
Expect no less when there's an L on my chest  
Got L's in the air on the East and the West  
You must confess we're the illest, Big Oak said it best,  
yo

[Chorus]

Lexicon.. Thes One.. People Under the Stairs  
Yes, yes, yes yes y'all..
