Through the shadows of her minds
Through the rainbow of her time
It is you and me

Through the shadows of her minds
Through the rainbow of her time
It is you and me

It's you and me
That's what I want to be
You and me
You and me

It's you and me
It's what I want to be
You and me
It's you and me

We both run and run
and run and run and...

It's you and me
That's want I want to be
You and me
You and me

It's you and me
That's want I want to be
You and me
It's you and me
