When you run it down to me  
[Uh, yeah, right there, baby]  
When you run it down to me  
[Right there, baby, yeah]  
When you run it down to me  
[Yeah, move it down, baby]  
When you run it down to me  
[Mmm, hmm, yeah, keep me hot]

I love it when the freak is on  
I wanna taste below your waist  
Ill make it good all night long  
It aint fake, aint no mistake

I know you love it when you climb on top  
I heard you whispering dont stop  
My job is incomplete  
Until Im pleasin you

Love cant fade and I know  
I wanna flow it to your heart  
I plan to make my mark  
Dont be shy, pacify the feelings  
With my roamin hands  
Girl, come on and freak your man  
Im the one that gives it to you like you need

When U want me 2  
Ill come runnin, keep love comin  
When U want me 2  
Every evening, just believe it

When U want me 2  
Ill come runnin, keep love comin  
When U want me 2  
Every evening, just believe it

I got the skills to keep you tight  
So keep it comin baby, comin all night  
When it comes to lovin you best  
You keep me hot, I make you sweat

Im feelin all that youre feelin  
Your butter love Ill be stealin  
Givin you my all and all  
Every time you call, babe

Youre the boss, and got awful hours  
So tell me what you need, mmm  
>From there I will proceed  
Take the time, close your eyes and travel  
To the feel good zone, babe  
I love how you moan and groan  
Im the one who gives it to you like you need

When U want me 2  
Ill come runnin, keep love comin  
When U want me 2  
Every evening, just believe it

When U want me 2  
Ill come runnin, keep love comin  
When U want me 2  
Every evening, just believe it
