Mountain girl

From your island in the sky

Send your love upon the world

And there'll be no need to cry

Island girl

In your eyes up in the clouds

I can see you dreaming of the promised land

You feel so shy, but yet so proud

Laura... Laura

Special girl

Life is blooming all around

Let your heart go wild

And love will soon be there, again

Lonely girl

Life ain't as bad as it seems

There'll be friends around

And flowers in the spring

To ease your mind and free your will

Laura... Laura

Love may deceive

Don't shed a tear (don't cry, don't cry)

'Cause love will carry on its way (carry on its way)

Dry your eyes another day has come and gone

You won't be left alone

Mountain girl

From your island in the sky

Send your love upon the world

And there'll be no need to cry

Lonely, lonely girl

Life ain't as bad as it seems

There'll be friends around

And flowers in the spring

To ease your mind and free your will

Laura... Laura
