We're wasting
So many truths that we depend
On getting by
Another lie
On every other thing that dies
And as his voice beckons out
I hear the end
The end of trauma slowly setting in
My body seems to stop and freeze

Stop
Well I just dance the way I feel
Stop breathin'
Imagine none of this is real

Stop
Well I just dance the way I feel
Stop breathin'
Imagine none of this is real

Well I just dance the way I feel
Well I just dance the way I feel
Well I just dance the way I feel

A simple crowd makes a movement on my space
I'm lashing out
I'm crashing down
On all the people in my way
I'm batting all of these objects from this place
This place is ruined
Been affected
After all the time I've paid

Stop
Well I just dance the way I feel
Stop breathin'
Imagine none of this is real

Stop
Well I just dance the way I feel
Stop breathin'

Imagine none of this is real

Well I just dance the way I feel

Stop

Well I just dance the way I feel

Stop

Well I just dance the way I feel

Stop

Moving on to someone else

Your're always open with yourself

And no one

I talk to no one

Always falling short of help

I choose to take this by myself

And go

And I just go

Stop

Well I just dance the way I feel

Stop breathing

Imagine none of this real

Stop

Well I just dance the way I feel

Stop breathing

Imagine none of this is real

Well I just dance the way I feel

Stop (x2)

Well I just dance the way I feel (x10)
