Cloud and fog  
Cover the earth  
Dread and fear  
Have now returned

Red rainfalls  
Poison the sky  
Blood and death  
For years and more

Chemical infection on it's way  
Synthesized corruption and decay  
Pure decay, pure decay, pure decay

Dead planet  
Virus unknown  
Plague and curse  
Fall on the globe

Chemical infection on it's way  
Synthesized corruption and decay  
Parasite, parasite, parasite

Bacteria out to spread  
One bacteria and you're dead  
One bacteria out to spread  
One bacteria and you're dead
