Riding, crashing, charging
Run to the wrong side in the night
Bastard, savage prowler
Whip the engine for more power
Darkness, black walls, shadows
Fast winds, highway, hell song
Can't see the light on the road
Feel the fog in the black storm
Alone in a haunted
Abandoned and possessed
concrete fondation
Desert, ghost town, bare land
Closed lamps, curfews
In a ghostly mansion
Dead leaves
Dark street, create a fear
Your soul will catch the spell
The black cat awaits the
witch
Don't stay in black city
