Stepped out for a smoke  
Sun's down, set on cold  
Weird thoughts have to go away  
Torments to evacuate

Dark side of doomed life  
Winter never dies  
Black ice, dead end sky  
Deep eyes, look inside  
Empathy for the enemy  
Too bad, I am drilled to say... No!

Regrets will forever last  
Images filling up my glass  
I drink to my enemies  
White shadows in my reveries

Craving for day light  
Bad curse never dies  
Trouble waits in line  
Haunted by these cries  
Empathy for the enemy  
So far, I've been forced to stay...

No! No!

Heart shield  
Heats sleeps  
Eyes closed  
Night ghosts

Randomize  
Analyze  
Supervise  
Purify  
Mystify  
Hypnotize  
Terrorize  
Mobilize  
Galvanize  
Glorify

Idolize  
Justify  
Genocide

Each one on it's side  
We try to figure out why  
This non-sense has gone  
Way over the borderline  
There's no glory day  
No victory and no parade  
When people pay the price  
Uniforms, a disguise

Empathy for the enemy  
Will I be able to say...
