Armed with a knife in hand
Drink it, drink all
This is my law
Flowing blood on the end
Gaining force casting spell
Depends on action in agony
Brought up in hell
Enduring death

Aahhh! Never die young
Fight for my sound
Ooohh! Betrayers keep out
Of my sight
Live for violence

Yes I live for violence
In the midst of attack
Warrior we fight
Like a savage in a cage
See it, see me
For my self preservation
I keep my distance
Dead line to meet
Beholder I'm in pain
Cold blooded war

Manipulating all
Battle controls
The Violence is loose

Adenalin shoots
You make me high unwittingly
We give you the best
We whip the flesh
Destroyer call
Warriors we fight...
Not bad after all...
In the midst of attack
Manipulating all
Battle controls
