Better way to get here  
The chaosmongers scream  
No more control, leave minds alone

We'll turn it upside down  
Been waiting oh so long  
This is it, it's finished  
This is it, we get it

Big liar on his side  
Hiding, hearing inside  
No more control, leave minds alone

We'll show them what we've got  
Forever they'll be locked  
This is what you look for  
This is more, this is war

It's gonna be hostility  
Hypothetic is liberty  
Anti-being society  
As directed reality

My point of view that's for sure  
Is lucid but insecure  
Revolution is evident  
Chaosmongers are resistant

You better shake up your mind  
'Coz if you're just staying blind  
Integrity you won't find

The discord is real now  
Echo is very loud  
No more control, leave minds alone

Soon the system will die  
It's another rough time  
Don't back off and stand up  
Go for it, we need it

Point of view that's for sure

Is septic and insecure  
Evolution isn't a shame  
Each member stays in the game

You better shake up your mind  
'Coz if you're just staying blind  
Integrity you won't find

Maybe we'll win, maybe we'll loose  
Confrontation, both side they use

Macrosolutions to megaproblems  
Macrosolutions to megaproblems  
Macrosolutions to megaproblems  
Macrosolutions to megaproblems

It hasn't changed, it's all the same  
You'll check the box, you'll put that cross  
The vote is done, another one

My point of view that's for sure  
Is worry and insecure  
But I won't forget this gang  
The chaasmongers who still stand

You better shake up your mind  
'Coz if you're just staying blind  
Integrity you won't find
