Side effects of tunnel vision
Technofix of silicone
Noise that wanders like a liquid
Cyber shame and anarchy
Useless memory transistor
Pressure in my surgery

Nanoman, they let you wander
Like a child and then they fill you
Full of things, then you'll turn to
Nanoman, Nanoman, Nanoman, Nanoman

Atomic levels of vibration
Plastic backwards ego freak
Question thinking focus unit
Replicator fog unreal

Nanoman, they let you wonder
Like a child and then they fill you
Full of things, then you'll turn to
Nanoman, Nanoman, Nanoman, Nanoman

In the age of erosion
The end is signaled by machine

Well, it can orchestrate the atoms
High pitched metal centuries
Satellites destroy an eye blink
A million atoms dance alone

Nanoman, they let you wonder
Like a child, then they fill you
Full of things, then you'll turn to
Nanoman, Nanoman, Nanoman, Nanoman
Nanoman, Nanoman, Nanoman, Nanoman
