Fast and pure desolation
Lust the blood in my brain
Hard and dry destruction
Wet under the neutron rain

Die in this holocaust
Scream the deflect attack
Burn before you reload
Stress before the power blast

War a command for blood we scream
Die, nothing less than death we creep
Hold, never stop

Storm the only weather
Start the directives assassins
Warm inside the under shelter
Wait and feel your broiling skin

War a command for blood we scream
Die, nothing less than death we creep
Hold, never stop

Hot ozone disappear
Blight in the atomic detention
Rats, it's a survival breed
Destroy with defalgration

War a command for blood we scream
Die, nothing less than death we creep
Hold, never stop

I have one track, it's to kill
You'll never stop me
Running my evil way
With radioactivity

My machine comes at night
Missiles they strike
Save your life in the dark
For the loud attack

Hey, nuclear war

I'm really up tonite
For my last ride
Never returning at home
I'm gonna die

The war machine is not save
And I can't escape
When the bombs will hit my face
It will drive me insane

Hey, nuclear war
You'll never stop me
