The men in the black forces  
Listen to your conscience  
Stopping the evolution  
The books are the essence

United to burn anything  
That can make a stand  
The church is an empire  
The no way direction

No matter what you say  
They run completely blind  
No matter what you wrote  
Shut up, you lie

And the books are burning hard  
Your mind is running slow  
Your mind is running slow  
Your mind is running slow

Light up a fire  
In the middle of the city  
Burning all the thoughts  
Of those who got some ideas

The mission will continue  
Throughout time  
Manipulation  
Of all fragile minds

No matter what you say  
They run completely blind  
No matter what you wrote  
Shut up, you lie

And the books are burning hard  
Your mind is running slow  
Your mind is running slow  
Your mind is running slow

Burn, burn, burn, burn  
Burn, burn, burn, burn

Down, down, down, down  
Down, down, down, down

Don't want to endure it anymore  
Much too radical  
The future intelligence  
Falls into enemy hands

Don't want to hear it anymore  
Much too political  
Spending the time in ignorance  
Computers blow up by the shock of the present

Your mind is running slow  
Your mind is running slow  
Your mind is running slow

The blackguards control  
The blackguards control  
The blackguards control  
The blackguards control

The blackguards control  
The blackguards control  
The blackguards control

Blackguards control  
Blackguards control  
Blackguards control  
Blackguards control
