

Voivod "Reactor"

Visit "[Reactor](#)" on MotoLyrics.com

Restricted area
The danger zone
Top secret formula
A power load

The pressure rises
And gets too high
The wheels are rolling
At the speed of sound
The time is coming
To shake the ground

No failure at this point

The core survived
Transfer, recalibrate, and modify
Another test

Are we all set?
The wheels are rolling

You hear that sound

Something's burning
Down in the ground
Alarm lights
Blinking up
On and off
Crazy stuff
Control room
Leaking pool
Pump the fuel
What a mess

Procedures
Safety suits

Out of luck

Hurry up
We cannot stop this thing
Now it's too late

I must say from now on

No one is safe

Abandon site

Run for your life
The wheels are rolling

Explosion sounds

The time is coming

To leave this town
Can't shut down
Crews are dead

Steam blows up

At the top

A problem here

A failure there

And all the plant

Is melting down
As you see

Things can be

So quickly
Very ugly
