Delivering the noise to keep my head red hot
Riding in the long run, I get the energy
Tonight let's go, I'm here to feel my suicide
We turn it on and you'll be going crazy

The electricity is in the air to shock
Breaking into shivers if you want disorder
They're many maniacs here, the shit is just beginning
It will be long before we see posers again

I'm gonna find some rockers limb from limb
Running the speed in blood, blowing my ears with noise
In this place everybody becomes mummified
I don't know why but it's sure, we're the violators

Anyway I shall go where fate leads me
In some place they looked at us in wide mouthed
Maybe because we are heavier than all destructors
It's a lot of fuss and you don't have a choice

Bite, kill, rush, sulk and there's no chance
To save your cracked brain
Burn, slam, shout, scream the end is always near
I want to drop my pill

Delivering the noise to keep my head red hot
Riding in the long run, I get the energy
Tonight let's go, I'm here to feel my suicide
We turn it on and you'll be going crazy

The electricity is in the air to shock
Breaking into shivers if you want disorder
They're many maniacs here, the shit is just beginning
It will be long before we see posers again

Bite, kill, rush, sulk and there's no chance
To save your cracked brain
Burn, slam, shout, scream the end is always near
I want to drop my pill

Ah, ah, the riff came full punch at my head
Do you like it? I've got a brain damage

It's the ripping headaches

I'm still smashing and my body is doing bad

We don't care and you know all the world must die

We don't care and you know all the world must die, ah
