While NASA tries to read your mind

Research labs create new life
Did we really walk on the moon?

Are you still watching the news?
Strange and ironic
How trusty is this world

Strange and ironic

How we take care of the Earth
The lobby cheers and cracks in laughter
While Middle East burns and suffers
It is a shame, we're not gonna make it

Visions are behind bars

It's like an illness or a disease

It's like we're made for war
Strange and ironic

How we believe in God
Strange and ironic
Since everything's a fraud
While markets trade human parts
We ask ourselves if science is art
It is a shame, we're not gonna make it

Because it is out of our hands
It is out of reach, out of proportions
And soon will come to an end
All I wanted was to disappear
Do or die!
It is a shame, we're not gonna make it
Everything you know is wrong
A race for knowledge, a quest for power

So who is number one?

All I wanted was to disappear
