Title: Hold it on the charm

-----  
She's looking up the world  
And all its faces  
She knows the little people  
In high places  
Hold it on the charm  
I couldn't care a lot  
My sun is breaking straight into pearls

She's moving up crowd and all it graces  
She's making fun of me  
I think she's racist  
Hold it on the charm  
I couldn't care a lot  
My sun is breaking straight into pearls

Stand sad and synergy  
Vacant queen, vacant dreams  
Over mad'egoos, mad'eforwards  
Take all the lines you need  
I got weed, I got weed  
And its taking its time  
And its taking it time

Stand round the back bar crowd  
And all the wasted  
They're only talking coz  
They think they're famous  
Hold it on the charm  
I couldn't care a lot  
My sun is breaking straight into pearls

Hold it on the charm I couldn't care a lot  
My sun is breaking straight into pearls  
My sun is breaking straight into pearls  
My sun is breaking straight into pearls
