Sickness hide inside
Eating flesh by time
The saddest news I have in mind
But I know you man
A heart like no one else
Keeps the fire glow friend
[Chorus:]
If I loose you, with the smile you do
If I loose you, in the morning
In the final sleep
If I lose you

Only one to know
And I promise you
Nothing change unless you say
But I know you man
A heart like no one else
Keeps the fire glow my friend

[Chorus]
Carry on cause there's no place to hide
Find the oath and feel
Our love for you is for all endless time
Alone you never be
[Chorus]
