Little angelfuck, it's a shame that luck is the only thing  
did you like the fun? did you like the times that i  
promised you?  
open wounds on your brow,  
little angel is red .  
she isn't loving you anymore!

little angelfuck, it's a shame that luck is the only thing  
did you like the fun? did you like the times that i  
promised you?  
open wounds on your brow,  
little angel is red .  
she isn't loving you anymore!

little angelfuck i seen you going down on a fireplug.  
well little angelfuck size for everyone.  
let those bastards believe.  
dry your thighs and we'll leave,  
she isn't loving you anymore!
