Sweet Lori June a friend I met in school
She brightened up my life
in a world that was sometimes cruel
More than a friend a light to guide my way
Her compassionate heart
shown like the sun on my darkest days
She had a plan to ease the children's pain
to make something of her life
she went back to school again
There was a man caught up in tradition's game
He was struck by this new girl's charm
and he just had to know her name

He told his friends "very soon I will know her"
They said "how can you feel so secure
He said "I'm telling you before this year is through
you'll see Lori with Eddie for sure"

He had a plan to win her precious love
He saw his future in her eyes
She was all he was thinking of
Soon they were friends
their hearts becoming one
though the year was nearly over
their love had just begun

Though their passion can some times be stormy
Their love for each other is pure
Now, I wouldn't gamble on anyone else
On Lori and Eddie for sure
The whole world should know their love story
It can happen to me and to you
Just take it from Eddie you've got to hang on
and then all of your dreams can come true

One September day she vowed always to love him
As he vowed that his love would endure
They became man and wife, for the rest of their lives
You'll see Lori and Eddie for sure
