Music is a language to me
people all over the world communicate in harmony
Well it's a way to express, what's on your mind and in
your soul-Gente takes the sum of all cultural parts. To
make the music world whole
it makes no difference to me. Your political slant or
ideology.
If you like good music the way that I do
and we meet at a party I'll get along with you.
Some will say other's music stinks.
That's not the way that I think.
I need some rock in my soul -honey.
The many parts that make the whole-Hermano
I need some rock in my soul-Sonny
A taste of Rock N' Soul Salsa.
In a preacher's dream-sueno de, Dr. Martin Luther King.
People all over the world who coexist in harmony.
Who have learned to outgrow
judging the color of our skin-Gente
and learn to respect the soul and heart that beats
within-ladies
it really don't matter much to me.
Your religion or faith or genealogy
just give all good people respect that they 're due
if we meet at a party I'll get along with you
we've got to get started right today
let the music will show you the way
just put some rock in your soul-honey
the many parts that make the whole-Hermana
I need some rock in my soul-Sonny
a taste of Rock N' Soul Salsa
we've waited such a long time
so spicy good it makes you feel like dancing
no time for smoking, drinking or romancing
I need some rock in my soul honey
Yeh taste of Rock N' Soul Salsa
No need to wait a long time
