Whoa, da da da da da da da (repeat)

I John Reuben on behalf of the forgotten, I stopped in

To keep it in your memory tightly locked in, remember
me

240 lb from back then, way back, why what who where
when

Well, two decades in the makin, take it all in

From the kid of my life, I felt drawn in

Not many could see quite what I saw then

Young kid, free style, studyhall-in

Way before I hit the microphone brawlin

Way before I ever started yes yall in

I knew to get live, it was my callin

I had a fresh vibe on all fours crawlin

(add lib)Gather in and get down

(add lib)Gather in and get down

(add lib)Gather in and get down

(add lib)Gather in and get down

So much energy, so much force

Movin to the rhythm rockin till my voice gets sore

Bust now, where'd that come from yall, where's the
shooa

Yall feelin me yet, bet, let's set the course and get the
blood circulatin

When the beat starts breakin, the people start shakin

And I start communicatin, are you feelin me yet

God given inspiration got me in imagination

And it's reeling me bet, bet, better than best

Fresher than fresh, man, from highth to depth, right to
left

We keep your hands up in the air and say what

And keep em up and say what, say what

I, John Reuben, on behalf of the forgotten, I stopped in
to build it

Give me a room full of hyperactive children

Forget the Redelin, man I want 'em routy, come on and
crowd me

When I choose to use my voice loudly

Shall we get down, immediately, how we get down,
somality

Mos definitely fresh as can be the best in me

The pop a recipe for curin the g now what they see

We rockin steadily incredible melody

Motivated from the animated side tellin me, compellin
me

Tellin me to rock, and yo the track is hot

And I am ready to get live even if you're not

Just pick out the spot and bring 'em all in

Party people get down while the turntables spin

After it's done, my man, we do it up again

Because I'm sure by then we'll have a second whim
