"Captain's All"

Visit "[Captain's All](#)" on MotoLyrics.com

Long ago when i was just a lad
the other boys hated me said i made them mad
i guess i didn't fit in with the norm
i'll never know why people are so desperate to conform
And i remember something that you said
Those 9 words of yours stuck inside my head
you said "Prince Charming: Ridicule is nothing to be
scared of"
And so i took it as a rule

I slipped on my finest suit
shined up my pirate boots
put a medal on my lapel
I thought of you and gave them hell!
We're captain's all and we run this show
and we only sail where we want to go
and we live at east doing as we please
like Pirate's drifting out at sea

All of us have whethereed through a storm
and though they say what doesn't kill you
often makes you better
We live to tell and carry on
after all, it's nothing but a patch of nasty Weather
some of us are still around
You're still the handy highway man
who scares them to attention
And when you board you really make us proud!
It's admiral on deck and we're standing at attention

I slipped on my finest suit
shined up my pirate boots
put a medal on my lapel
I thought of you and gave them hell!
We're captain's all and we run this show
and we only sail where we want to go
and we live at east doing as we please
like pirates drifting out at sea

That's right We're captain's all we run this show
and we only sail where we want to go
If you have orders though
keep them to yourself

cause the only ones we follow are our own!

as for the ones whom we adore
Those of our friends are still lost out in the storm
We raise a glass to you
and leave on a light or two
in case you ever make it home
there's always room on board because we're

captain's all and we run this show
and we only sail where we want to go
and we live at ease doing as we please
like pirates drifting out at sea!

That's right we're captain's all we run this show
and we only sail where we want to go
If you have orders though
keep them to yourself
cause the only ones we follow are our own!

Yohohohohohohohohohohohoyohoyohohohohohooooooohooooohohoho
