There's a pilot impaled to the wing
And he's... dead.
And all the passengers, they are missing
Cause they're... dead.

Oh, someone tell me why
I'm alive?
I don't even care
And yet I... have been... spared

There's a girl with a hole in her heart
And she's... dead.
And there's an infant that's been torn apart
Now he's... dead.

Oh, someone tell me why
I'm alive?
I don't even pray
And yet I... have been... saved

The good Reverend Carlin he was right he said, "When
you pray,
Only 50% of the time will you get your way."
If God doesn't listen to our cries when we call
Someone tell me what's the point of praying at all?

There's a man and he lives in the sky
So they... said.
And he watches us all of the time
So I've... read.

So someone tell me why
It could be, he won't talk to me?
Could it be... that I'm... deaf.

The good Reverend Carlin he was right he said, "When
you pray,
Only 50% of the time will you get your way."
If God doesn't listen to our cries when we call
Someone tell me what's the point of praying at all?

God is all knowing
And God is all seeing
Just who do you think that you are
To change his mind?

He already knows what you want
And decided that you didn't need it
So don't bother asking for cures or an answer
God is the one who gave you the cancer.
