Expendable, I'm wearing red and I'm expendable  
You need me dead, I am dependable  
You need me live I'm not your guy  
Cause on the surface, where Spock and Kirk is  
It's almost certain that I'm gonna die  
Expendable am I

Terrible, when it comes to shooting I'm just terrible  
I shot into 110 rebels and didn't hit a single guy  
I couldn't hit the Death Star while on the Death Star  
I'd probably shoot my foot and then I'd cry  
A terrible shot am I

Back at the academy  
No one was as bad as me  
Though I tried my very best

Make my teachers all irate  
Puke from everything I ate  
Got an F on every test

Though it's selling what's my wish  
I broke the main deflector dish  
And they threw me out of class

And they caught me raising heck  
Naked on the holodeck  
I thought there's no way I can pass

And just when I thought that I was screwed  
They said "We've got the perfect job for you!"  
"You do?"

"You'll be expendable  
You will wear red and be expendable  
Forgetting deck, you are dependable  
In fact you are the perfect guy  
If shields are down or we blow a warp core  
It's almost guaranteed you're gonna fry!  
Expendable..." "...am I"

Back when I was just a teen  
Growing up on Tatooine  
Beggar's Canyon was my scene

But my aim was really bad  
Shooting fools i almost had  
With my trusty T-16

This made me a little stressed  
More than just a bit depressed  
Drowned my tears in Anchorhead

There I met a man named Big  
Said he had the perfect gig  
To put me to the test

And just when I thought that I was screwed  
He said "I've got the perfect job for you!"  
"You do?"

"You will be terrible, when it comes to shooting you're  
just terrible  
You'll shoot at 210 Gungans and not a single one will  
die  
We'll get the last laugh on Palpatine's ass  
By building him an army of guys  
So terrible..." "...am I!"

And that's how I became a red shirt  
And that's how I became a trooper  
And though apart we are pathetic  
Together we are super duper

"I'll shoot at you at you from a foot or two  
and much to your surprise  
I'll miss you!"  
"Yet I'll still die!"  
"I'll miss you!"  
"Yet I'll still find a way to die!"
