I hear your voice  
and the world goes away  
I see your face  
and this place is ok  
oh for just a moment of your time  
oh now that'd be sublime  
do you hear me  
I'm here for you  
you don't see me  
way in the back of the ballroom  
I've been here since last night at 9  
i was the first in the line  
you make me cry  
more than anyone I've ever met  
in my whole life  
you make me smile despite myself  
i live for you  
i wouldn't lie  
you make me love you more  
than i love myself  
corner cafe random meeting  
is that really you there  
scrape me off the ceiling  
i've waited my whole life for this day  
now i dont know what to say  
you are the sea and the sky  
and i'm content to not know why  
i am that moth to your flame  
...i wish i was good enough for you
