You change your mind like a girl changes clothes
Yeah you pms like a chick I would know and you always
think

Over speak cryptically
I should know your no good for me

Cause your hot and your cold your yes and your know
your in and your out

Your up and your down your wrong when its right its
black and its white

We fight we break up we kiss we make up

(You) you dont really want to stay no

(But you) You dont really want to go oh

Cause your hot and your cold your yes and your no

Your in and your out your up and your downnn

We used to be just like twins so in sync the same
energy nows a

dead battery Used to laugh bout nothing

Now your plain boring

I should now that your not gonna change

Cause your oht and your cold your yes and your no

Your in and your out your up and your

down your wrong when its right its

black and its white

We fight we break up we kiss we make up

(You)you dont really want to stay no

(But you)You dont really want to go oh

Cause your hot and your cold your yes and your no

Your in and your out

Your up and your down

Someone call the doctor got a case of a love by-polar

Still coming rollarcoaster I cant get off this ride

You change your mind like a girl changes clothes
