Don't feel lonely now, I'm right beside you,  
Well I get closer, but you push me away,  
I've been back for you, I don't deny it  
Something tells me that you want me to stay

Don't you see what I've become?

I've been to the edge, don't worry, don't scare me,  
Rising above, this fear, that I carry  
Scream at the top of my lungs, till you see me here

Well I feel confident, when I rely on,  
What brought faith and love, not blindside,  
Don't feel bad for me, Don't deny my love,  
If you want me to, ya know I'll stay

Don't you see what I've become?

I've been to the edge, don't worry, don't scare me,  
Rising above, this fear, that I carry  
Scream at the top of my lungs, till you see me here

Been to the edge, Been to the edge,  
I feel alive

I feel so much for you, I don't deny it,  
But if you want me to, I'll walk away,

I've been to the edge, don't worry, don't scare me,  
Rising above, this fear, that I carry  
Scream at the top of my lungs, till you see me here
