

## VonRay "Hole"

Visit "[Hole](#)" on MotoLyrics.com

There's a hole in the neighborhood where  
I go  
When I feel misunderstood  
I sit alone and wonder  
What I am who I am

There's a picture down the hall reminds  
me  
Of when I almost had it all  
When it falls I pick it up  
And put it back

Chorus  
It's not like me to fall apart  
I put my soul out on the table  
You take me in  
And only then I start to climb

I got a friend I like to see and it seems  
I like her and she likes me  
But it always leads  
To a falling out, a falling out  
There's a chapter in a book and every  
page  
Helps me take a second look  
It's only then I find  
The shelter from the pain

(chorus)

Bridge  
There's a fool in my head  
Telling me I'm not myself  
Is it wrong for me to believe  
That I could walk out of this dream  
(Chorus)
