When the smog clears and the sun goes down
Your life begins, 'til you hit the ground.

Let's go.

Soaking it all up, with pain and misery,
It's not for everyone, but it works for me.

That's right.

Taking all victims, here come the shots,
Shout out his name, enter the dragon.
Taking all victims, here come the shots,
Shout out his name, enter the dragon.

Staring at the clock, time is catching up,
Start feeling the hand leading you away.
Looking in the glass, black circles plaguing me,
Get myself a chance, the chance to sit with me.

Taking all victims, here come the shots,
Shout out his name, enter the dragon.
Taking all victims, here come the shots,
Shout out his name, enter the dragon.

Enter the dragon!
