This is the last party before I die
Well I won't die, well, I'll just feel like shit
If someone offers me another drink
Dig my grave and just throw me in

This is the last party before I die
I won't die, well, I'll just feel like shit
This is the last party before I die
Dig my grave and just throw me in

Well I've been here since five p.m.
And I've been up all night
Then some girl walks up to me
And I can't say things right

A pain in my head, my eyes are blood red
The police are at the door
I'd better run and try to hide
Here they come, let's go

This is the last party before I die
Well, I won't die, well, I'll just feel like shit
This is the last party before I die
Dig my grave and just throw me in

This is the last party before I die
I won't die, well, I'll just feel like shit
This is the last party before I die
Dig my grave and just throw me in

Sometimes I get sick of it
Then again I don't want to quit
Social leprosy's not for me
Partying keeps my sanity

This is the last party before I die
I won't die, well, I'll just feel like shit
This is the last party before I die
Dig my grave and just throw me in

This is the last party before I die
I won't die, well, I'll just feel like shit

This is the last party before I die
Dig my grave and just throw me in

This is the last party before I die
Well, I won't die, well I'll just feel like shit
This is the last party before I die
Dig my grave and just throw me in

This is the last party before I die
I won't die, well I'll just feel like shit
This is the last party before I die
