Save us from tomorrow, we need help today  
Seems like we've been burning bridges  
Instead of trying to pave the way.  
Feels like the World's turned their back on us  
With nothing but discontent.  
Public enemy number one has cashed in your rent  
check

Where you gonna be when the World stops turning?  
(When the World stops turning)  
What you gonna do when the sun stops shining?  
(When the World stops turning)

Fight a war over Texas tea  
At the expense of our bloodshed.  
Third World mental combat  
Versus superpower technology.  
The blind led through the battlefields  
With all the words they say.  
In the name of government, God bless the USA.

Where you gonna be when the World stops turning?  
(When the World stops turning)  
What you gonna do when the sun stops shining?  
(When the World stops turning)

Mother earth, she declares war on all the human race  
Father time is closing in as the devil sits and waits  
No more borders anymore when she declares her fate.  
When the World stops turning, it won't matter anyway.

Where you gonna be when the World stops turning?  
(When the World stops turning)  
What you gonna do when the sun stops shining?  
(When the World stops turning)
